

S1 Table. Stage matching of Sheldon-based UraC to TNM-based UroBC

UraC stage (Sheldon)		Matched	UroBC stage (TNM)	
			to:	
I	Confined to urachal mucosa	→	T1	Invasion to subepithelial connective tissue
II	Invasion to urachus	→	T2	Invasion to muscle
IIIA	Local extension to bladder	→	T3	Invasion to perivesical tissue
IIIB	Local extension to abdominal wall			
IIIC	Local extension to peritoneum			
IIID	Local extension to viscera other than bladder	→	T4	Invasion to adjacent structures
IVA	Metastasis to lymph node(s)	→	N1-2	Metastasis to lymph node(s)
IVB	Metastasis to other organ(s)	→	M1	Distant metastasis

TNM, tumor-node-metastasis; UraC, urachal carcinoma; UroBC, urothelial bladder cancer.
